1. Identification of the substance/preparation and of the company/undertaking
Trade name: Calibration standards (Liquid or Dry) for Electronic Breath Analysers

Manufacturer:

Dart Sensors Ltd
Innovation Centre
Rennes Drive
University of Exeter Campus
Exeter
Devon
EX4 4RN
United Kingdom

Tel.: +44 (0)1392 247944

Fax: +44 (0)1392 247945

Further information available from:

Our website: <http://www.dart-sensors.com>

Contact us: customer.service@dart-sensors.com

2. Composition/information on ingredients

Ethanol (< 1%):

CAS number 64-17-5

EINECS number 200-578-6

Liquid standards only

Water:

CAS number 7732-18-5

EINECS number 231-791-2

Copper sulphate (< 1%):

CAS number 7758-98-7

EINECS number 231-847-6

Dry standards only

Molecular sieve:

CAS number 1318-02-1

EINECS number 215-283-8

Copper acetate (<1%):

CAS number 142-71-2

EINECS number 205-553-3

3. Hazards identification

Description of ingredient hazards:

None at specified levels.

Special instructions for man and the environment

Copper sulphate and acetate solutions:

Revised: 22/07/09

Page 2 /4

R52: harmful to aquatic organisms.

R53: may cause long-term adverse effects in the aquatic environment.

4. First aid measures

After inhalation: Not applicable

After eye contact: Rinse opened eye for several minutes under running water.

After skin contact: Flush skin with plenty of soap and water.

After ingestion: Seek medical attention immediately.

5. Fire-fighting measures

The material is not flammable or explosive.

6. Accidental release measures

Person-related safety precautions: Not required.

Measures for cleaning/collecting:

Dry standards - collect mechanically

Liquid standards - absorb on tissue or cloth and dispose according to local regulations

7. Handling and storage

Handling: No precautions required

Storage: Store in a cool dark place to preserve shelf life

8. Exposure control / personal protection:

Recommended personal protection:

None.

General protective and hygienic measures:

Keep away from food and beverages.

9. Physical and chemical properties

Dry Standards:

Appearance: Pellets

Colour: Grey or brown

Odour: None

Boiling point/boiling range: N/A

Melting point/melting range: N/A

Flash point: N/A

Autoflammability: N/A

Explosive properties: none

Water solubility: none

pH: N/A

Liquid Standards:

Appearance: Aqueous solution

Colour: Pale blue

Odour: none

Revised: 22/07/09

Boiling point/boiling range: 100°C

Melting point/melting range: 0°C

Flash point: n/a

Autoflammability: n/a

Explosive properties: n/a

Relative density at 20°C: 1 g/cm³

Water solubility: 100% miscible

pH: 7

10. Stability and reactivity

Conditions to avoid: no thermal decomposition.

Materials to avoid (liquid standards only): K, Na

Hazardous decomposition products: none.

11. Toxicological information

Acute toxicity: none known

Primary irritations (dry standards only): skin and mucous membranes.

Sensitisation: none known

12. Ecological information

General instructions: copper salts are hazardous to aquatic life but their concentrations in the liquid standard and the reconstituted dry standard are not greater than 0.275%. The UK CHIP Regulations apply to copper salt concentrations greater than 1%.

13. Disposal considerations

Disposal of materials: according to local regulations

Disposal of packaging: waste disposal according to local regulations

14. Transport information

Land transport ADR/RID (cross-border)

ADR/RID class: -

Maritime transport IMDG:

IMDG Class: -

Marine pollutant: No

Air transport ICAO-TI and IATA-DGR:

ICAO/IATA Class: -

15. Regulatory information

Classified and labelled in accordance with EU directives.

Liquid standards:

Risk phrases

R52: harmful to aquatic organisms.

R53: may cause long-term adverse effects in the aquatic environment.

Safety phrases

S61: Avoid release into the environment

Revised: 22/07/09
